# Vision- Building Healthy Communities Together

Mission-We make a difference in health and healing, one person at a time, through caring and trusting relationships.

## Values

- Integrity
- Respect
- Service
- Teamwork
- Safety

# Anchor Institution

- Anchor institutions are enterprises such as universities and hospitals that are rooted in their local communities by mission, invested capital, or relationships to customers, employees, and vendors.

# AtlantiCare Foundation

The AtlantiCare Foundation was established in 1977 and charged with generating significant charitable support to ensure AtlantiCare's vision of building healthy communities was carried out to benefit current and future generations residing in southeastern New Jersey.

Over the years, charitable dollars have supported the construction and expansion of buildings; have funded community based initiatives such as our Healthy Schools, Health Children program; and have supported educational scholarships and patient care funds. The support of our donors, who have generously taken a moment to make a difference, has been vital as we continue to pursue and deliver excellence in healthcare quality and patient satisfaction.

# Partnerships in Healthcare

- Cannot do everything
- Some organizations do it better than us
- Applied ego strength to work with “others”
- Fill industry gaps
- Better together than apart
- Sum is greater than its parts

# Partnership with JFS

- Ongoing Care coordination and collaborations for individual patients/clients
- Health Center Week-An AtlantiCare event supported by JFS
- Point in Time count-CoC Committee led by JFS and supported by AtlantiCare
- Housing First DCA for frequent utilizers of Jail and AtlantiCare emergency services
- Pathways to Recovery-vocational program for those impacted by opioid epidemic
- JFS vocational services-placement of persons with disabilities and supported job coaching into AtlantiCare system
- JFS vocational consultation to AtlantiCare for their employees with disabilities (in addition to those we are serving in the above JFS vocational program)
- NJHI - JFS on committees with current work focused on data from homeless service providers and the connection into AHA coordinated entry and assessment Previous committee on nutritious food
- JFS community garden and health education with funding from AtlantiCare
- MHOP, JFS case manager
- Crisis Diversion Unit at the Rescue Mission

# AC Collaborative

- The AtlantiCare Foundation lead a two-year project (funded by the NJ Health Initiative) to build a healthier community by more effectively connecting Atlantic City's community members who are homeless with available social services. By increasing data sharing among Atlantic City's service providers through the wider implementation of Homeless Management Information Software (HMIS), the Foundation and its key partners in the AC Collaborative – a Care AC work group – are working to reduce the duplication of services rendered to individuals who are homeless. The Collaborative is engaging all participating social service providers in the adoption of HMIS as a common client database through this project, enabling those individuals to navigate and receive services more effectively.

# Where we are with Housing Now

- Implemented a home buyer program for employees
- Beginning to work with development corporations
- Seeking partnerships
- Eager to innovate

- Success is measured by the depth of our relationship

- We only lose when we don't work together
